

## **LECTROKLEEN - 7**

### **Description**

LECTROKLEEN-7 is a liquid product used for the cleaning and degreasing of electrical equipment such as generators, motors, distribution boards, windings, dynamos, starters and dismantled machine parts with the following advantages:

- a. Low toxicity and has no unpleasant odor.
- b. Safe to colors and generally all metals.
- c. Great cleaning capability.
- d. Does not require rinsing.
- e. Provides temporary anti-corrosion protection.

### **Application**

LECTROKLEEN-7 is used in recirculating machines (pump - brush) to remove dust, oil, grease, etc.

The material has a long service life and is therefore very economical.

It can also be used by hand with brush or spray.

The objects are allowed to dry. No rinsing required.

### **Approval:**

LECTROKLEEN – 7 is approved according to the Greek Legislation by the State General Chemical Laboratory with approval No.13729/0/2009.

### **Caution**

Avoid contact with skin and eyes. For further information refer to M.S.D.S.

### **Packaging**

LECTROKLEEN – 7 is available in 30-liter plastic pails and 210-liter drums.
