

DRAIN CLEANER

Description:

DRAIN CLEANER is a powerful drain opener that unclogs the sewage (sinks, tubs, W.C., baths, sewers, drains, etc.).

Provides fast, potent performance to clear blockages. No mechanical equipment is needed.

Dissolves all fat and all organic matter. Rapidly disintegrates hair, paper, food scraps, rags, sanitary napkins and impurities.

Contains anticorrosive additives and does not affect metals such as copper, bronze and lead.

Application:

Wear gloves and carefully open the bottle.

For unblocking:

If there is water, empty out as much as possible and add 200-250 ml (1/4 of this container) to the blocked facilities. Allow the product to act for 1 hour and then rinse with plenty of water.

For blocked W.C.:

Insert a flexible pipe of 1-meter length, in order to surpass the drain and add the product into the pipe with a trumpet.

For grease collectors and drains:

Use 500 ml (1/2 bottle).

For pipes of large diameter:

Use 1000 ml (the whole bottle).

Maintenance:

100 ml at regular time intervals.

Caution:

DRAIN CLEANER is safe for pipes of lead, copper, PVC and rubber. It should not be used on aluminum, zinc, sensitive enamel and acrylic surfaces. It should not come in contact with plastic bathtubs and sinks. DRAIN CLEANER should be added directly in the opening of the drain with the use of a trumpet.

VERY ACIDIC PRODUCT. Do not use with water or other chemical products, especially chlorine or caustic soda. **NEVER ADD WATER TO THIS PRODUCT.** For further information refer to product label.
