

2005 CARBURATOR CLEANER **(SPRAY)**

Description :

2005 Carburetor cleaner is specially formulated to clean the interior of carburetors, injection systems and input valves.

Benefits :

- a) Fast acting and no water rinse is necessary.
- b) Removes oil, grease, carbon deposits, dust etc.
- c) Safe on all metals.

Alternative uses :

Even if **2005** is mainly formulated as a carburetor and injection cleaner, alternatively it may be used as a general use cleaner for oil, grease, carbon deposits and as a break disc cleaner.

Directions for use :

When engine is running spray into the carburetor for 30 seconds. Reapply if it is necessary.

When used as a general use cleaner, just spray and repeat until the surface is cleaned.

Caution :

Avoid spraying on painted surfaces since it may attack the paint.
Pressurized container. Take all the precautions for pressurized containers (see par. III of M.S.D.S.).

Packaging :

2005 Carburetor cleaner is available in aerosol spray (450ml).
