

## **2007- M SPATTER OFF**

- **ANTI SPATTER FOR WELDING**
- **CLEANS CONTACTS TIPS & GAS NOZZLES**
- **SILICONE FREE**

### **Description:**

**2007 - M SPATTER OFF** is a special product used on welding machines with Argon. Cleans contact tips and gas nozzles.

Protects the nozzle tip and the surfaces from spatters.

### **Benefits:**

- **Easy removal of welding spatter**
- **Suitable on steel, stainless steel, aluminum and some alloys**
- **Cleans contact tips and gas nozzles**
- **Silicone free – Does not interfere with post-weld coatings.**
- **Protects metal surfaces and welding equipment**
- **Rust inhibiting additives** – Prevents flash rust of in-process and surrounding metal surfaces

### **Directions:**

- Spray the product around the mouth of the torch and over the metal to be welded or cut until a protective film is obtained.
- Re-apply as needed.

### **Caution:**

Pressurized container. Do not pierce or burn even after use. For further information refer to Material Safety Data Sheet.

### **Packaging:**

The product is available in 400 ml aerosol spray and 20 liter pails.
