

203 – ELECTRIC CONTACT & ELECTRONIC SYSTEMS CLEANER

Fast Evaporating & General Use Cleaner

DESCRIPTION: 203 – ELECTRONIC CONTACT & ELECTRONIC SYSTEMS CLEANER is a NEW TECHNOLOGY, fast evaporating, contact cleaner for all types of electrical and electronic equipment. Leaves no residues and has a high dielectric constant.

Effectively removes oil, grease, dust, moisture, etc.
Safe to all types of plastic and rubber.

BENEFITS:

- Ozone friendly - CFC free
- Does not contain chlorinated hydrocarbons
- Ideal for electrical/electronic parts
- Low odor
- Fast evaporation
- No residue
- Safe on plastics

Formulated to replace the product of specification MIL-C- 81302 which usage has been forbidden since it destroys the ozone layer.

APPLICATIONS: 203 – ELECTRONIC CONTACT & ELECTRONIC SYSTEMS CLEANER can be used for industrial, office, military, aviation and marine equipment for cleaning all electric and electronic parts and as a general use cleaner, such as:

Circuits	Wires	Radar	Communication equipment
Switches	VCRs	Antennas	Distributors
Potentiometers	Radios	Telephones	Oxygen systems
Transistors	Tape recorders	Aviation material	Precision assemblies, etc.
Rheostats	Computers	Control panels	
Televisions	Typewriters	Sparkplugs	

PRECAUTIONS:

Extremely flammable. Do not spray on naked flame or hot surfaces. For further instructions refer to Material Safety Data Sheet (MSDS).

PACKAGING:

Is available in spray cans (Aerosol) of 400 ml and in 5 gallon cans.
