

203 – ELECTRIC CONTACT & ELECTRONIC SYSTEMS CLEANER

Fast Evaporating & General Use Cleaner

<u>**DESCRIPTION:**</u> 203 – ELECTRONIC CONTACT & ELECTRONIC SYSTEMS CLEANER is a NEW TECHNOLOGY, fast evaporating, contact cleaner for all types of electrical and electronic equipment. Leaves no residues and has a high dielectric constant.

Effectively removes oil, grease, dust, moisture, etc. Safe to all types of plastic and rubber.

BENEFITS:

- > Ozone friendly CFC free
- > Does not contain chlorinated hydrocarbons
- ➤ Ideal for electrical/electronic parts
- ➤ Low odor
- > Fast evaporation
- ➤ No residue
- > Safe on plastics

Formulated to replace the product of specification MIL-C- 81302 which usage has been forbidden since it destroys the ozone layer.

<u>APPLICATIONS</u>: 203 – ELECTRONIC CONTACT & ELECTRONIC SYSTEMS CLEANER can be used for industrial, office, military, aviation and marine equipment for cleaning all electric and electronic parts and as a general use cleaner, such as:

Circuits Wires Radar Communication equipment **Switches VCRs Distributors** Antennas Radios **Telephones** Oxygen systems Potentiometers Precision assembles, etc. **Transistors** Tape recorders Aviation material Rheostats Control panels

Rheostats Computers Control panel Televisions Typewriters Sparkplugs

PRECAUTIONS:

Extremely flammable. Do not spray on naked flame or hot surfaces. For further instructions refer to Material Safety Data Sheet (MSDS).

PACKAGING:

Is available in spray cans (Aerosol) of 400 ml and in 5 gallon cans.
