

2001 PENETROL **Spray aerosol**

- **PENETRATING OIL**
- **CORROSION PREVENTIVE**
- **WATER DISPLACER**
- **LUBRICANT**

Main Use:

A new type of fast acting penetrating oil that meets the requirements of U.S. Military Specification A-A-50493B Type I.

Alternative Use:

Rust preventive and water displacer.

Description:

2001 PENETROL is a new type of penetrating oil that quickly releases rust and helps for easy dismantling of screws, bolts, tools, spare-parts, etc. Keeps moisture away. Lubricates locks and prevents creaking. Cleans and protects. Maintains wires, distributors spare-parts and frees blocked mechanisms. Protects spare-parts and leaves a small imperceptible protective film.

Benefits:

- Fast acting penetrating oil.
- Penetrates existing rust and forms a film to prevent further corrosion.
- It is rust preventive and protects the surfaces from rust and corrosion.
- Cleans and lubricates the surfaces it is applied.
- A fast acting water and moisture displacer fluid that quickly dries out machines and electrical equipment.
- It allows quick starting of wet ignition systems and electric motors and equipment without disassembly or removal.

Applications:

Workshops, industry, marine, aviation, outboard engines, locks, windows, doors, bicycles, motorcycles, cars, farming equipment, cranes, wire-rope, blocked mechanisms, spark plugs, distributors, wires, antennas, etc.
